ismailrodiyyah01@gmail.com

## **SUMMARY**

---

- Outstanding teamwork and problem-solving skills as evidenced by successful completion of group projects and assignments
- Skilled in using microscopy and imaging techniques to study the morphology and histology of human tissues and organs
- Aspiring to work in a clinical or pharmaceutical laboratory setting

## **EDUCATION**

---

**Ladoke Akintola University of Technology** – Ogbomoso, Oyo State, Nigeria

**2014 – 2021**

B.Tech, Human Anatomy

## **WORK EXPERIENCE**

---

### **Technologist**

**December 2023 - Present**

#### **Federal University of Health Sciences, Ila Orangun**

- Maintain and prepare anatomical specimens, ensure compliance with safety protocols, and oversee the efficient functioning of lab equipment
- Assist students during anatomy demonstrations, dissections, and practical sessions
- Manage tissue preservation, specimen cataloging, and laboratory inventory
- Ensure adherence to ethical and legal guidelines in the handling of human cadaveric material

### **Laboratory Assistant**

**November 2022 - April 2023**

#### **Integrated Research Laboratory** – Ilorin, Kwara State

- Assisted researchers in conducting various experiments
- Prepared samples, specimens and equipment for analysis and research
- Recorded and reported test results and findings using Microsoft Spreadsheet
- Maintained cleanliness and safety of the laboratory and followed proper procedures and policies

### **Teacher - Biology, Chemistry, and Basic Science**

**November 2021 - October 2022**

#### **Gracious College** – Ilorin, Kwara State

- Evaluated student progress and provided constructive feedback to improve performance
- Maintained positive relationships with students and their families to promote student success
- Worked collaboratively with students to identify and address any learning gaps, and provided targeted support

### **Industrial Trainee**

**July 2019 - December 2019**

#### **LAUTECH Anatomy Laboratory** – Ogbomoso, Oyo State

- Assisted in the preparation of reports and presentations on laboratory findings
- Determined the ability of animal bodies to regenerate destroyed or damaged parts
- Contributed to the continuous improvement of laboratory processes and protocols
- Maintained laboratory equipment, supplies and materials in accordance with safety protocols
- Examined large organs and systems of the body by systematic observation and dissection, and examined the minute structure of cells, tissues and organs using a microscope

## SKILLS

---

- Proficient in data analysis and interpretation
- Ability to work effectively in a team environment
- Excellent written and verbal communication skills
- Strong organizational and time management skills
- Knowledge of laboratory techniques and protocols
- Ability to learn new techniques and software quickly
- Detail-oriented and committed to accuracy and quality
